📄 SUMMARY

Java Full Stack Developer with 1.2+ years of hands-on experience building production-ready web applications using Java, Spring Boot, and React.js. Proven ability to design scalable RESTful APIs, integrate complex enterprise systems, and deliver end-to-end features across the full development lifecycle. Currently deepening cross-functional system integration expertise at Rein Solutions in the MES domain. Passionate about clean architecture, microservices, and fast-paced startup environments where ownership and engineering impact matter. Hands-on exposure to Generative AI fundamentals including RAG architecture and Spring AI integration.

📁 PROFESSIONAL EXPERIENCE

MES Engineer, Rein Solutions

06/2026 – Present
Pune, Maharashtra

- Investigated and resolved critical application issues by analyzing server logs, SQL query outputs, and system error traces, reducing incident resolution time.
- Wrote complex SQL queries (Oracle & MySQL) for data validation, root cause investigation, ad-hoc reporting, and multi-table database troubleshooting.
- Tested and validated REST APIs using Postman — performed request/response validation, JSON/XML payload analysis, and regression testing of API endpoints.
- Utilized **Linux CLI**, **SSH (PuTTY)**, and WinSCP for remote server access, real-time log monitoring, file management, and environment-level debugging.
- Performed **Root Cause Analysis (RCA)** for recurring production issues; documented findings, prepared technical reports, and implemented preventive fixes.
- Collaborated with Java developers and QA engineers to reproduce bugs, validate fixes, and verify production releases through structured deployment validation.
- Managed incidents and defect lifecycle using **Jira** and **ServiceNow**; tracked SLA compliance and coordinated resolution across cross-functional teams.
- Processed and debugged XML and JSON payloads for API integration issues and data pipeline troubleshooting.

Associate Software Engineer, itsWin Technologies

05/2025 – 06/2026
Indore, Madhya Pradesh

- Designed and built 15+ RESTful APIs using **Spring Boot** and **Spring MVC**; integrated with React.js frontend using Axios.
- Built and optimized **MySQL** database schemas, wrote complex SQL queries, and implemented **JPA/Hibernate** ORM with lazy/eager loading strategies.
- Implemented JWT-based authentication and **Spring Security** for role-based access control (RBAC) across Admin, Manager, and User roles.
- Developed responsive, reusable **React.js** components with Bootstrap 5 and CSS3; improved page performance by 30% via code splitting and lazy loading.
- Wrote **JUnit** and **Mockito** unit tests for service layers, achieving 80%+ code coverage on core business logic modules.
- Participated in **Agile/Scrum** ceremonies — sprint planning, daily standups, code reviews, and retrospectives; delivered features on schedule.
- Managed source code using **Git** and **GitHub**; followed feature branch workflow, pull requests, and release tagging practices.
- Debugged production bugs by analyzing application logs, SQL query results, and API responses in coordination with senior developers.

TECHNICAL SKILLS

Languages: Java 8/21

Backend: Spring Boot, Microservices, Spring Data JPA, Spring Security, Hibernate/JPA, REST APIs, Redis, Kafka

Frontend: React.js, HTML5, CSS3, Axios, React Router, Thymeleaf

Databases: MySQL, Oracle DB

DevOps and Tools: Git, GitHub, Postman, Jenkins CI/CD, Docker, Maven, VS Code, Eclipse IDE

Project Management:: Jira, Agile/Scrum, Root Cause Analysis(RCA)

Server & OS: Linux (Ubuntu/CentOS), SSH (PuTTY), WinSCP, Shell Commands, Log Monitoring

AI and Emerging Tech: Generative AI Fundamentals, Tokens, Embeddings, RAG Architecture, Spring AI

PROJECTS

CakeBloom - Online Bouquet & Cake Ordering Platform (Microservices)

05/2026 – Present

Tech Stack: Java 17 | Spring Boot | Spring Security (JWT) | Spring Data JPA | Hibernate | REST APIs | Microservices | Spring Cloud API Gateway | Eureka Server | MySQL | Postman | React.js

- Developed a full-stack online bouquet and cake ordering platform using React.js, Spring Boot, and MySQL with a scalable Microservices Architecture.
- Implemented independent Authentication, Product, Order, Payment, and Delivery Services, integrated through Spring Cloud API Gateway and Eureka Service Discovery.
- Built secure JWT-based authentication, admin dashboard, product CRUD operations, shopping cart, checkout, order management, and delivery tracking modules.
- Designed a responsive, modern UI using React.js, Framer Motion, and GSAP, with RESTful API integration and MySQL persistence.
- Followed layered architecture, REST API best practices, and environment-based configuration for secure credential management.

AI-Powered Career & Recruitment Platform

02/2026 – 04/2026

Tech Stack: Java | Spring Boot | Spring Security (JWT) | Spring Data JPA | Hibernate | REST APIs | MySQL | React.js

- Developed a full-stack AI-powered recruitment platform with secure JWT authentication and role-based access.
- Implemented AI Career Assistant, AI Resume Analyzer, job management, candidate application tracking, and recruiter dashboard.
- Built RESTful APIs using Spring Boot with MySQL integration and a responsive React.js frontend using Axios and modern UI design.

Elite Bank - Digital Banking System

08/2025 – 09/2025

Tech Stack: Java | Spring Boot | REST API | Hibernate | React.js

- Built a production-grade full stack digital banking application supporting account management, deposits, withdrawals, fund transfers, and complete transaction history
- Engineered RESTful APIs using Spring Boot with layered architecture, centralised exception handling, and Spring Security integration
- Integrated React.js frontend with Spring Boot backend using Axios and designed a responsive banking dashboard with live analytics and transaction tracking
- Managed MySQL schema design and CRUD operations using Spring Data JPA and Hibernate ORM with efficient indexing and data integrity controls

WORKSHOPS AND TRAINING

PCAD : Programming Essential In Java: Cisco Networking Academy Level 1 and Level 2 both: Cisco Networking Academy Level 1 and Level 2 both.

Attended an Internship Program on "Web Development": Attended an Internship Program on "Web Development": under AICTE - SPICES scheme in association with Techdigi Software

Hacker-Rank (Java) 

EDUCATION

Oriental Institute of Science and Technology, Bhopal - RGPV,
Bachelor of Technology - Computer Science and Engineering

2021 – 2025
Bhopal
