

# RAJ SINGH

Full Stack Developer | Java | Spring Boot | React.js

Bengaluru, India | +91 8358849865 | [rajsingh2781979@gmail.com](mailto:rajsingh2781979@gmail.com) | [www.linkedin.com/in/rajsingh0105](https://www.linkedin.com/in/rajsingh0105)

---

## PROFESSIONAL SUMMARY

---

Java Full Stack Developer skilled in java, Spring Boot, React.js, and SQL, with strong foundation in software development and a passion for creating efficient web applications.

## TECHNICAL SKILLS

---

**Languages:** Java (Core, OOP, Collections, Exception Handling), JavaScript (ES6+), SQL

**Backend:** Spring Boot, Spring Data JPA, Hibernate ORM, REST API, Spring Security, Spring AI, MVC Architecture

**Frontend:** React.js (Hooks, Props, State Management), HTML5, CSS3

**Databases:** MySQL, Oracle DB — SQL queries, joins, indexing, JDBC, RDBMS concepts

**Tools & DevOps:** Git, GitHub, Postman, VS Code, Eclipse IDE, CI/CD Concepts (Jenkins)

**AI & Emerging Tech:** Basic Understanding (Generative AI fundamentals, Tokens, Embeddings, RAG Architecture)

## PROJECTS

---

**Elite Bank — Digital Banking System** | React.js, Spring Boot, Hibernate, MySQL, REST API, Axios

- Developed a full-stack digital banking application supporting account management, deposits, withdrawals, fund transfers, and complete transaction history.
- Built RESTful APIs using Spring Boot following Controller-Service-Repository layered architecture with proper exception handling and dependency injection.
- Integrated a React.js frontend with the Spring Boot backend using Axios; designed a responsive banking dashboard with live analytics and transaction tracking.
- Implemented CRUD operations and database management using Spring Data JPA and MySQL schema design.

**GitHub:** <https://github.com/rajsingh52004/Elite-Bank->

**Employee Management System** | Spring Boot, Spring Data JPA, Hibernate, MySQL, REST API

- Built a full-stack Employee Management System with RESTful APIs using Spring Boot and Hibernate ORM for backend operations including employee, department, and role management.
- Designed MySQL database schema with full CRUD support, input validation, and structured exception handling.
- Applied Spring Boot Dependency Injection and layered architecture (Controller, Service, Repository) for a clean, maintainable codebase.

**Vilora — E-Commerce Platform** | React.js, CSS3, Axios, Context API, JavaScript, React Router Dom

- Developed a premium e-commerce web application using React.js and Context API.
- Implemented Product CRUD, Wishlist, Cart, Authentication and Order Management features.
- Built additional modules including Vilora Minutes (Quick Commerce) and Travel Booking.
- Designed responsive UI with GSAP animations and Framer Motion transitions.
- Integrated Admin Dashboard with Analytics and Product Management functionality.
